# HALLA + Opálka Designstudio

HALLA, a.s. is a significant Czech producer and exporter of design technical luminaires. Our products connect top technical parameters with imaginative appearance and allow perfect synergy of light and space due to the cooperation with designers and architects. We are still looking for new ways to push the limits of the lighting quality with respect to nature, history and current trends. HALLA is holder of many awards as for example Red Dot Award, IF Design Award, German Design Award.

Matúš Opálka is a Slovak designer, a graduate of Academy of Fine Arts and Design in Bratislava as well as the founder of Opálka Design studio. When designing, he puts emphasis mainly on innovativeness, functionality and simplicity. Despite his young age, he is the holder of many awards as for example Red Dot Award, IF Design Award or German Design Award. Currently, he operates in Prague where he studies at the Academy of Arts, Architecture and Design Product Design Studio.

HALLA / 2016

INLIO luminaire was primarily designed for office lighting, where the lighting system should reach the URG parameter is less than 17. Very slim body is designed for LED Edge Lighting System, using microprismatic optics. Opal diffuser on the top of the luminaire allows direct-indirect light distribution. The luminaire can be also equipped with the Tunable White LED technology, which has positive effect for the Human Centric Lighting. Rounded edges, wavy structure and very thin profile has enabled to produce compact luminaire reaching high technical paramaters.

# technical **description**

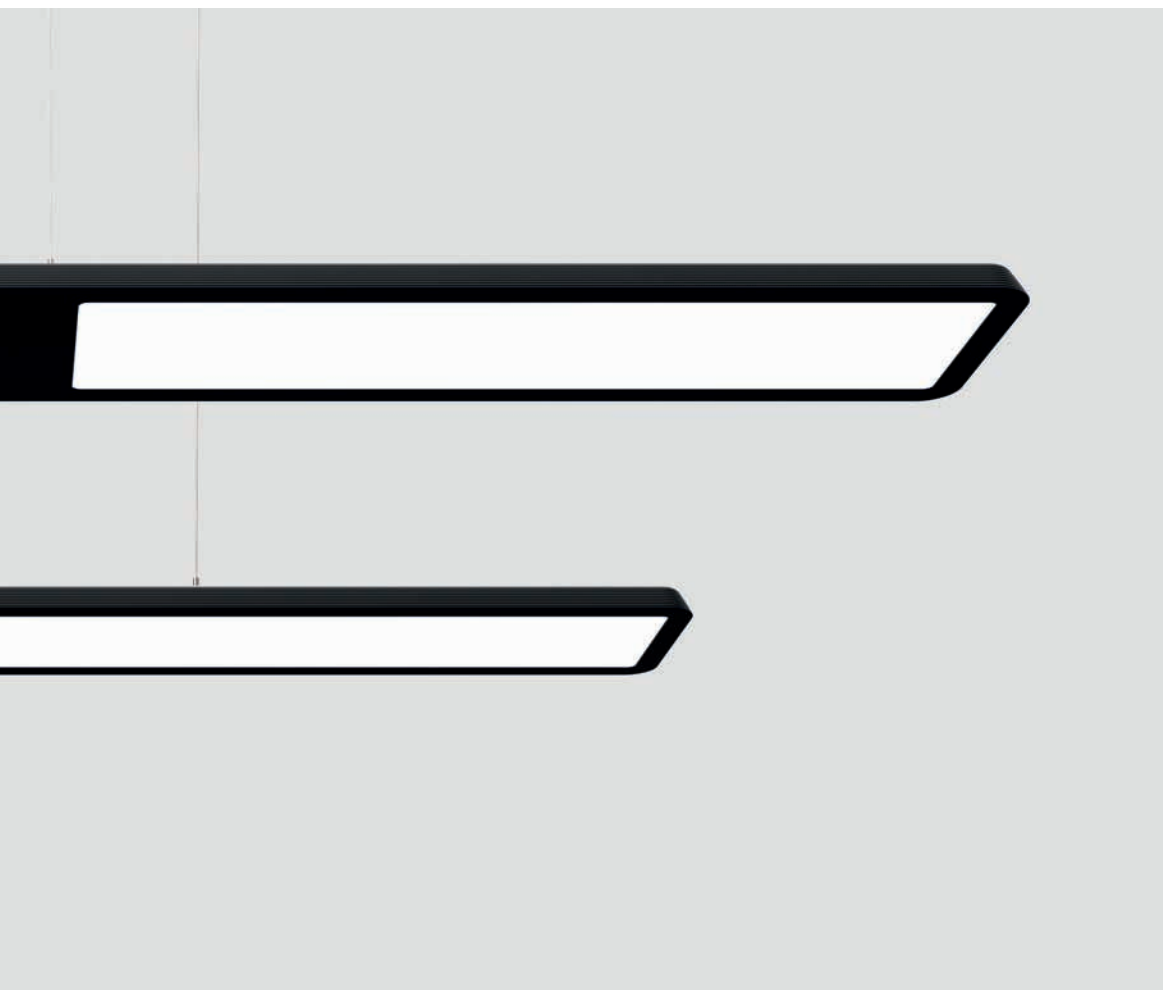

office luminaire / INLIO

There are 2 types of the luminaires. The shorter one powered via suspension wires from the ballast box built-in a plasterboard or surface mounted to the ceiling, without any additional power supply cable. The longer one is suspended directly from the ceiling and powered by the transparent supply cable, the ballast box is included in the body.

Body: Aluminium profile/ powder painting  
Colour: White, Silver, Black  
Light source: LED – module 47 W  
Fitting: Pendant/ 5870lm  
Light distribution: Direct – indirect  
Optics type: Microprismatic optical system or opal diffuser  
Colour temperature: 3000K, 4000K  
Colour temperature for Tunable White: 2700-6500K (DALI DT8)  
Colour temperature for Tunable White: 2700-6500K (DALI DT8)/W

Voltage: 220-240V  
Glare index: UGR <17  
Dimensions: 1330mm x 183mm x 24mm  
1180mm x 183mm x 24mm

Type 1

Type 2
